

Steel River Group is a private Indigenous business and a diverse management entity that creates an opportunity where Indigenous led businesses are empowered to create and capture value for their people, alliance partners, and communities. Our companies offer various support services to support projects in resource sectors across Canada.

Steel River Solutions, a division of Steel River Group, offers a diverse range of operational construction and management support services to meet the ever-growing demands of construction industries. Our solutions include all the disciplines required to plan, build, and maintain a project from beginning to end, and our focused dedication to completely understand a project allows us to deliver efficient, cost-effective services that also create value for our Indigenous partners.

Steel River SICIM is a partnership between SICIM, a Global EPC contractor, and Steel River Solutions with a clear objective to provide our Clients with the best possible service in the engineering, procurement, supply chain, construction, and commissioning of facilities and pipelines. Our collective focus is on safety and quality, with an unwavering commitment to value and respect to the environment, local community and indigenous people.

STEEL RIVER SICIM is seeking applicants for an upcoming project in the Grande Prairie / Valleyview Region.

LABOURERS:
